

Bloggging in the Smart Conference System

Demo Steps: SPIRAN, SPbETU, PetrSU

1. SC client runs on N900 and shows the state of the conference (program, slides, schedule, ...)

Switch to Scribo client on the same N900

2. Scribo client shows available blog-discussions of conference participants

It also shows tweets of FRUCT9 if needed (<http://twitter.com/fructorg>)

3. Writing blog messages to Smart Conference

In parallel, a web browser runs on a laptop

4. Simple blogging with traditional web-client

Look at N900 again

5. Scribo client reflects the discussion evolution

Switch to SC client and repeat
